Time to confess... the Regal Inspiration is one of my favourite holiday homes.

The design / layout is perfect; the use of space and light; the kitchen layout is efficient and attractive; the side hallway entrance gives access to all areas and acts as a buffer to the outdoors on those chilly days; the large corner shower is luxurious... the list goes on.

So, what more to say?

The large family sofa has a fold-out bed for guests (if the twin bedroom is already taken!) and the living area is a joy to be in with large windows and patio doors to flood the area with light.

The master bedroom has lots of wardrobe space, a dressing table and en-suite w.c.
