£66,495

Sunseeker Supreme

The Sunseeker Supreme has great expectations to meet at a massive 41 x 13.

This pre-owned model has recently come into stock at Pearl Lake and I am really happy to say that this holiday home meets every expectation.

The kitchen dining area is very spacious - lots of worktop space and a great finish to the units. There is a dining table for 4 people that takes advantage of the masses of natural light from the patio doors.

The lounge is comfortable and with free-standing furniture can be rearranged to make the most of the view.

The added advantage of this model is that there is a family shower room as well as an en-suite shower room in the master bedroom. This is a great layout for visiting family or friends giving flexibility and privacy in equal measure.

Currently on display at Pearl Lake.
