A light and spacious open plan living area - dining area for four people, fitted kitchen, lounge with patio door - is perfect for family living or just a great social space.

The family shower room has everything you need - shower cubicle, wash basin, and w.c. - and when guests are staying you also have the privacy of an en-suite w.c. in the master bedroom. The twin room is ideal for guests or family and the master bedroom, tucked away at the rear of the holiday home, is private and cosy.
